Singapore, February 13, 2007 – Olam International Limited (“Olam” or the “Group”), a leading global, integrated supply chain manager of agricultural products and food ingredients, today reported a Net Profit After Tax of S\$30.1 million for the quarter ended December 31, 2006 (“Q2 FY2007”), achieving a 24.7% increase over the previous corresponding period (“Q2 FY2006”). Sales Volume grew by 21.4% from 0.942 million tonnes to 1.144 million tonnes while Sales Revenue was up 21.6% to S\$1.464 billion from S\$1.203 billion in Q2 FY2006, with the growth in Revenue being entirely organic.

This strong improvement in earnings is the result of strong growth in both underlying Sales Volumes and NC across all the four business segments.

Olam’s CFO, K. Ravikumar said: “We have had another good quarter. Our earnings in the first half of the financial year contribute typically between 30% and 40% of our full year’s earnings. This reflects the seasonality of our business since we are present more in the northern hemisphere countries where the harvesting season typically falls between October and March.”

Olam’s Group Managing Director and CEO Sunny Verghese said: “We continue to deliver consistent profitable growth by growing the top line, bottom line and earning more than our cost of capital concurrently. This consistent performance against the backdrop of volatile commodity markets reflects the effectiveness of our business model, our strong competitive position in the industry and our ability to execute well on our strategic growth plans.”

Financial Review

For Q2 FY2007, Sales Revenue rose 21.6% to S\$1.464 billion as Sales Volume grew 21.4% to 1.144 million metric tonnes, with broad-based contribution from all four business segments.

GC for Q2 FY2007 increased 36.1% to S\$121.4 million while NC improved by 32.7% to S\$81.6 million. All four business segments registered growth in both GC and NC in spite of higher interest cost during the period. NC per tonne grew from S\$65 to S\$71 arising from the implementation of margin enhancement initiatives.

Cumulatively for first six months (“H1 FY2007”), Sales Revenue grew 23.5% to S\$2.367 billion backed by a 21.2% growth in Sales Volume to 1,816.4 million tonnes. 97% of the growth in

Sales Revenue was on account of the underlying volume growth while the balance 3% came from increase in prices for various products. GC and NC rose 36.1% and 32.9% respectively. All four business segments contributed to the growth in GC and NC. 70% of the growth in NC came from volume while the remaining 30% came from margin improvements, resulting in an overall higher NC per tonne of S\$72 from S\$66.

Review by Product Segment

Edible Nuts, Spices & Beans (S\$ million)	Quarter 2			Six Months		
	FY07	FY06	Change (%)	FY07	FY06	Change (%)
Sales Volume (metric tonnes)	91,133	67,040	35.9	225,773	187,647	20.3
Sales Revenue	150.7	84.6	78.1	335.1	236.3	41.8
Net Contribution	9.69	9.67	0.2	19.4	15.9	22.0
Net Contribution Per Tonne (S\$)	106	144	(26.3)	86	85	1.4

Sales Volume and NC for the **Edible Nuts, Spices & Beans** segment grew 35.9% and 0.2% respectively in Q2 FY2007 while H1 FY2007 saw growth of 20.3% and 22.0% respectively. The growth in volume came from all products in this segment – expanded volume in origin processed cashews in Africa, higher peanuts volume due to the good reception of peanuts from the blanching factory in China, acquisition of the Senwes peanuts processing factory in South Africa and successful outsourced farming and toll processing operations in Argentina, a larger sesame market share in China, as well as contribution from dehydrated spices and new spices markets in Turkey and the Middle East.

Confectionery & Beverage Ingredients (S\$ million)	Quarter 2			Six Months		
	FY07	FY06	Change (%)	FY07	FY06	Change (%)
Sales Volume (metric tonnes)	238,070	189,348	25.7	384,443	303,010	26.9
Sales Revenue	557.7	451.6	23.5	892.5	682.9	30.7
Net Contribution	30.8	21.2	45.4	47.7	34.9	36.5
Net Contribution Per Tonne (S\$)	129	112	15.7	124	115	7.6

The **Confectionery & Beverage Ingredients** segment experienced strong growth with Sales Volume and NC growing by 25.7% and 45.4% respectively in Q2 FY2007. Sales Volume and NC growth during the cumulative first six months was 26.9% and 36.5% respectively.

Coffee volumes were higher during the second quarter on the back of a good Robusta crop in Vietnam. The Group continued to perform well in Brazil being one of the top ten exporters in the country. The Group has also made significant progress in sourcing and processing in the new origins it has recently expanded into, namely Colombia, Peru and Honduras.

Cocoa volumes improved by 35% during the first half of the financial year, led mainly by strong performance in Asia and Cote d'Ivoire and Nigeria. The joint venture with ADM in Cameroon commenced operations successfully and marketing operations in Russia were also expanded during the quarter.

Food Staples & Packaged Foods (S\$ million)	Quarter 2			Six Months		
	FY07	FY06	Change (%)	FY07	FY06	Change (%)
Sales Volume (metric tonnes)	630,846	538,030	17.3	923,716	780,639	18.3
Sales Revenue	485.4	448.6	8.2	709.0	645.2	9.9
Net Contribution	21.5	16.8	27.8	33.6	26.2	28.4
Net Contribution Per Tonne (S\$)	34	31	9.0	36	34	8.6

Sales Volume and NC for the **Food Staples & Packaged Foods** segment grew 17.3% and 27.8% respectively in Q2 FY2007. On an aggregate six month basis, Sales Volume and NC growth were 18.3% and 28.4% respectively.

Significant growth in the premium rice segment was seen across all destination markets during the second quarter, resulting in higher sales volume and NC. Margins improved with various initiatives on the logistics front, such as the commencement of inward clearing operations in Cote d'Ivoire bearing fruit and resulting in increased efficiencies.

Sugar volumes grew 52% during the first half of FY2007 as a result of a strong performance in Brazil in the second quarter. Import volumes in Russia expanded and the distribution operations of refined sugar to other CIS countries had also commenced during the quarter.

Dairy Products volume grew 138% in H1 FY2007 given the expanded sourcing network from Western Europe, Eastern Europe, Argentina and the US. This was despite one of the tightest supply situations in dairy products experienced in the last several years. The growth in volume was also due to the successful distribution operation in China and the addition of cheese to the product portfolio.

Fibre & Wood Products (S\$ million)	Quarter 2			Six Months		
	FY07	FY06	Change (%)	FY07	FY06	Change (%)
Sales Volume (metric tonnes)	183,508	147,677	24.3	282,486	227,594	24.1
Sales Revenue	270.0	218.5	23.6	430.8	352.6	22.2
Net Contribution	19.6	13.8	42.0	30.8	22.0	40.3
Net Contribution Per Tonne (S\$)	107	93	14.3	109	97	13.0

The **Fibre & Wood Products** segment experienced 24.3% growth in Sales Volume and 42.0% in NC in Q2 FY2007. For the first six months, the segment saw 24.1% growth in Sales Volume and 40.3% in NC.

Cotton volumes rose 15% over H1 FY2006 and significant market share gains were achieved in Turkey, Thailand, India and Bangladesh during the quarter. Olam's recent move to relocate its US sourcing operation to Dallas is expected to enable the Group to participate in larger flows of cotton from the country.

Wood Products volumes grew strongly by 38% in H1 FY2007 with the bulk of the volume growth coming from products such as teak, hardwood, lumber and flooring. During the quarter, Olam strengthened its market position in India by entering into long term arrangement with suppliers in Ghana and teak concession in East Africa. On the sourcing end, Olam acquired forest concessions in Gabon, Congo and Zaire for a sustainable supply of hardwood.

M&A Update

Olam recently announced its intention to enter into a strategic partnership with Chinatex Corporation for the joint development of the oilseeds and cotton businesses in China.

For the oilseeds business, Olam plans to invest US\$13.5 million (S\$20.9 million) for acquiring 35% stake in Chinatex Grains and OIL I/E Corporation (CTGO), the oilseeds subsidiary of Chinatex. CTGO would then set up a fully-owned soybean sourcing subsidiary in Brazil. As part of this agreement, Olam would have an option to increase its stake to 45% within two years of setting up the Brazilian subsidiary, at a pre-agreed valuation.

For the cotton business, Olam and Chinatex plan to set up a 50:50 domestic cotton joint venture, which would be involved in sourcing, ginning, inland logistics, distribution and risk management for the domestic cotton market. As part of the transaction, both parties also propose to enter into a preferential purchase arrangement, whereby Olam could supply at least 30% of Chinatex's annual cotton imports, on a competitive basis.

The completion of the deal is subject to completion of satisfactory due diligence by Olam, signing of definitive agreements, customary closing requirements and regulatory approvals and is expected to be completed over the next six months.

Prospects

The Group continues to execute well on its strategic plans and has identified growth initiatives in different businesses. Barring any unforeseen circumstances, the Group is confident of its prospects going forward into the second half of FY2007.
