A close-up photograph of a person's hand holding a single white onion. The hand is positioned in the upper right quadrant of the frame. Below the hand is a large pile of similar white onions, some with soil still attached to their roots. The background is a blurred field of more onions, suggesting a farm or processing area. The lighting is natural, highlighting the texture of the onion skin and the skin of the hand.

PATMI	143.9	113.6	26.6
Operational PATMI	143.9	126.1	14.1

- Volume growth mainly due to opportunistic trading volumes in Grains
- Improved EBITDA growth from Edible Nuts, Spices & Vegetable Ingredients, Food Staples & Packaged Foods, and CFS segments compensated for lower contribution from Confectionery & Beverage Ingredients and Industrial Raw Materials, Ag Logistics & Infrastructure segments
- Higher depreciation and amortisation charges due to enlarged fixed asset base
- Increased net finance costs due to 1) larger invested capital base; 2) increase in benchmark interest rates; 3) increase in higher-cost local borrowing in select geographies

EBITDA and Invested Capital

- Compared to end-Mar 2016:

- Increase in Fixed Capital from acquisition of peanut shelling assets, as well as continued committed investments in upstream and midstream assets
- Increase in Working Capital from higher volumes and prices, including cashew, almonds, coffee and cotton

Invested Capital excludes

- (a) Gabon Fertiliser Project (31-Mar-17: S\$223.3 million, 31-Dec-16: S\$ 224.8 million, 31-Mar-16: S\$ 211.6 million), and
 (b) Long Term Investment (31-Mar-17: S\$ 172.7 million, 31-Dec-16: S\$ 148.4 million, 31-Mar-16: S\$ 236.4 million)

Segmental
analysis

Edible Nuts, Spices & Vegetable Ingredients

- EBITDA up 72.1% mainly due to higher Edible Nuts' contribution, primarily from peanut, cashew and almond businesses; steady contribution from Spices & Vegetable Ingredients, excluding tomato processing, which continued to underperform
- Compared to end-Mar 2016, Invested Capital increased by S\$464.1 million; Working Capital rose with higher volumes and higher cashew and almond prices; Fixed Capital up mainly due to acquisition of peanut shelling assets

Confectionery & Beverage Ingredients

- EBITDA down 28.7% due to lower contribution from Cocoa as a result of lower volumes and pressure on supply chain margins caused by sharp market movements
- Coffee achieved higher EBITDA from both green coffee and soluble coffee businesses
- Invested Capital increased by S\$611.8 million as compared with end-Mar 2016, driven by higher Working Capital from higher Coffee volume and prices; Fixed Capital also increased with continued investments in coffee plantations and expansion of soluble coffee capacity in Vietnam and Spain

Food Staples & Packaged Foods

- EBITDA up 38.0% with all platforms performing better than Q1 2016
- Key contributor to growth was Grains in both origination and milling; continued improved performance from Dairy upstream in Uruguay and Packaged Foods
- Invested Capital increased by S\$1.3 billion as compared with end-Mar 2016; higher Grains volumes and dairy prices drove up Working Capital; Fixed Capital up mainly due to construction of animal feed mills, wheat milling capacity expansion in Ghana and continued investments in upstream Palm in Gabon

Industrial Raw Materials Ag Logistics & Infrastructure

- EBITDA declined 4.6% as a result of lower contribution from Wood Products due to continued sluggish demand in India, partly offset by higher contribution from Cotton
- Invested Capital up by S\$246.4 million as compared with end-Mar 2016; Working Capital increased with higher volumes and prices of Cotton; Fixed Capital up with continued investments in upstream Rubber plantations in Gabon
